**Parties Reach Agreement on
Enbridge/Dominion Merger**

Dominion Energy Inc., Enbridge Inc., and intervenors in the companies' merger proceeding before the Utah Public Service Commission reached a settlement outlining a proposed set of enhanced merger commitments that Enbridge intends to implement upon acquiring Dominion's Questar Gas Co.

The Utah Division of Public Utilities (DPU), the state Office of Consumer Services (OCS) and the Utah Association of Energy Users (UAE), which represents the large industrial customers, are parties to the March 21 settlement with Enbridge and Dominion.

The Commission is examining the proposed deal for net positive benefits and must find it in the public interest prior to the approval. There is no statutory time frame within which the Commission must decide on a merger or acquisition application.

Enbridge has already made certain merger commitments related to Questar's credit quality, corporate structure and existing rates and tariffs to secure approval of the transaction.

In February, the DPU, on behalf of all Utah ratepayers, and UAE, representing the state's large industrial customers, called for Enbridge to expand its merger commitments in its bid to acquire Questar. Surrebuttal testimony in the proceeding is due April 8, and an evidentiary hearing will be conducted April 11. An additional hearing is reserved for the next day, if necessary.
